

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W Ranking: 18

Name of Intervention	Enhancing Motivation to Reduce the Risk of HIV Infection for Economically Disadvantaged Urban Women FS-26
Risk Behavior(s)	Unprotected sex Multiple partners Substance abuse
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Low perceived susceptibility</li> <li>• Expected outcomes (optimistic bias)</li> <li>• Cultural/group norms</li> <li>• Poor communication/ negotiation skills</li> <li>• Negative attitudes toward condom use</li> </ul>
Intended Immediate Outcomes	Increase risk perception Increase negotiation skills Reduce use of substance in sexual situations
Type	GLI
Setting	CBOs
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	Uses multiple settings to deliver the intervention. Uses members of target population as peer educators

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W

Ranking: 18

Name of Intervention	Project RESPECT C-11, FS-35
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Low Perceived susceptibility</li> <li>• Poor negotiation skills</li> <li>• Group norms</li> <li>• Poor attitudes toward condom use</li> <li>• Lack of social support</li> </ul>
Intended Immediate Outcomes	Increase risk perception Increase intent to use condoms Develop risk reduction plan
Type	ILI
Setting	STD clinics
Is this intervention currently being provided in your planning area?	No
Rationale for Selecting this Intervention:	Utilizes multiple settings to carry out the intervention. Utilizes Stages of Change Theory to guide participants through behavior change.

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W Ranking: 18

Name of Intervention	Project LIGHT, FS-43
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Perceived susceptibility</li> <li>• Poor attitudes toward condom use</li> <li>• Expected outcomes</li> <li>• Group norms</li> <li>• Attitudes toward condom use</li> <li>• Lack of social support</li> </ul>
Intended Immediate Outcomes	Increase risk perception Increase intent to use condoms
Type	GLI
Setting	STD clinics
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	The intervention offers two adaptations to the program. Service providers can identify what would work best for their target population.

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W

Ranking: 18

Name of Intervention	Real Aids Prevention Project (RAPP), C-13, FS-38
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Low perceived susceptibility</li> <li>• Communication/ negotiation skills</li> <li>• Group Norms</li> <li>• Expected outcomes (optimistic bias)</li> </ul>
Intended Immediate Outcomes	Increase risk perception Increase negotiation skills
Type	CLI
Setting	Areas where population congregates
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	Increases HIV related knowledge and aims at improving personal risk perception.

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W

Ranking: 18

Name of Intervention	The SISTA Project C-9, FS-29
Risk Behavior(s)	Unprotected sex
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Poor negotiation skills</li> <li>• Poor skills development relationships</li> <li>• Cultural norms</li> <li>• Poor social support</li> </ul>
Intended Immediate Outcomes	Increase negotiation and communication skills
Type	GLI
Setting	Community center
Is this intervention currently being provided in your planning area?	no
Rationale for Selecting this Intervention:	Ethnic and culturally specific, addressing the cultural and gender factors associated with risky behaviors.

Area 3 North Central-North/NorthEast  
Tab 7 – Intervention Selection Form

Subpopulation: FMS Women W

Ranking: 18

Name of Intervention	STD and HIV Testing (Outreach)
Risk Behavior(s)	Unprotected sex Multiple partners
Influencing Factor(s) or FIBs	<ul style="list-style-type: none"> <li>• Low perceived susceptibility.</li> <li>• Lack of knowledge of where to go for services.</li> </ul>
Intended Immediate Outcomes	Increase access to testing Increase knowledge of HIV serostatus and/or STD infection status Develop a risk-reduction plan Increase access to needed diagnosis and treatment services
Type	Other
Setting	Non-traditional test sites
Is this intervention currently being provided in your planning area?	Yes
Rationale for Selecting this Intervention:	High STD morbidity. Many women reported not knowing where to go for services, including testing.
